

ICIS is a leading energy markets data & research provider, serving a wide array of companies globally. The energy analytics department of ICIS provides cutting-edge data, modelling and written analysis to key decision makers across the trading and policy spectrum.

Due to our rapid company expansion, we have new exciting and challenging open positions for professionals in the area of EU carbon market analysis. We are currently looking for a bright, analytically skilled and communicative individual. As a *Student Analyst – EU Power & Carbon Markets* at ICIS you will join our experienced and dedicated analysis team in Karlsruhe, Germany.

## Student Analyst – EU Power Markets

We are looking for a student analyst to join our established energy analytics team in Karlsruhe (Germany).

You will be involved in producing quantitative analysis related to the European carbon markets and communicating to an expert audience.

As a student at ICIS, you will work on your own project, develop your own ideas and will contribute significantly to our products. To do so, you will work together with our experienced analyst team to receive support and to have challenging discussions about your project and analysis.

We offer our students a high degree of flexibilities also related to your university schedule – you can organise your working hours independently.

### Main responsibilities

- Support the analyst team in the day-to-day business and work on your own projects
- Together with an experienced analyst you will be responsible for the below tasks
  - Maintenance and enhancement of our database
  - Programming and implementation of model results on our client-facing EU analytics portal
  - Own project which will be defined based on up-to-date demand

### Key skills

- Analytical mindset, critical thinking, and solid numerical ability
- Affinity with energy and climate markets and basic understanding of the political development
- Python, SQL and Highchart programming skills are a strong advantage
- Good communication skills in English as you will work in an international environment

### We offer

- A vibrant environment working alongside a dynamic and motivated team
- Insights into the European carbon and power market
- Exposure to key market players in the European power & carbon markets
- Active involvement and responsibility from Day 1
- Fair remuneration for students

ICIS is the world's largest petrochemical market information provider with divisions spanning energy and fertilizers. Our aim is to give companies in global commodities markets a competitive advantage by delivering valuable information and analytics tools, which enable our customers to identify and react to opportunities in markets that are constantly evolving. We have more than 30 years' experience in providing pricing intelligence and news, forecast data, market analytics and independent consulting to buyers, sellers and analysts.

With a global staff of more than 600, ICIS has employees based in London, Houston, New York, Singapore, Dubai, Shanghai, Guangzhou, Beijing, Mumbai, Tokyo, Karlsruhe, and Milan.

ICIS is a division of [Reed Business Information](#), part of [RELX Group](#).

**Start date:** as soon as possible

**Location:** Karlsruhe, Germany
