

Consider making the switch to the University of Freiburg: It is one of the most renowned and strongest research universities in Germany, with a history spanning more than 500 years. You'll engage in top-notch research and teaching with a unique spectrum of disciplines, perspectives, and people - right in the heart of one of Germany's most beautiful cities.

The University of Freiburg's human resources policy is oriented toward the principles of equal opportunity and diversity. The university is committed to the goal of creating a family-friendly university.

The Faculty of Environment and Natural Resources at the University of Freiburg invites applications for a

**Junior Professorship (W1) "Transformation towards Sustainable Energy Systems" with Tenure Track**

Fulltime position, start date: immediately

in the Department of Environmental Social Sciences and Geography.

This professorship is particularly suitable for highly qualified early career researchers.

The professorship should develop and refine instruments of environmental regulation which are necessary for the transformation towards sustainable energy systems and investigate policy formulation and operational implementation under changing technical, societal, and economic conditions.

The main research focus will be on developing coordinated legal and fiscal management tools as well as managerial control instruments for the transformation towards sustainable energy systems.

The professorship should engage actively in a multi and interdisciplinary exchange with experts from business administration, engineering, law and environmental policy, and also involve representatives from industry and industry associations.

As the professorship is linked with the international and interfaculty MSc "Renewable Energy Engineering and Management" (REM), interdisciplinary cooperation and a special commitment in teaching within the MSc programme REM is expected. The willingness to engage in other study programmes is a requirement.

The successful applicant is able to demonstrate

- Research experience in environmental regulation and environmental management related to renewable energy and the energy transition or the transformation to sustainable renewable energy systems in general
- Legal expertise at the interface to economic sciences
- An interdisciplinary research profile

Prerequisites for the employment of Junior Professors are a university degree, an outstanding dissertation and an excellent publication record.

This position is a fixed term of four years. After a successful interim evaluation, it can be extended by two years. After successful interim evaluation the tenure procedure towards Full Professorship W3 will be initiated.

The tenure procedures are regulated in the Statutes and Quality assurance concept for Junior Professorships with and without Tenure Track and agreed upon with the Ministry of Science. As a prerequisite for granting tenure and the subsequent conversion into a full professorship (W3) (1) the requirements defined in the Statutes and Quality assurance concept have to be met and (2) the subject specific criteria determined by the Faculty of Environment and Natural Resources have to be met.

We are particularly pleased to receive applications from women for the position advertised here.

The following application documents are to be submitted:

- Curriculum vitae
- Certificates of degrees and academic qualifications as well as references
- Complete list of papers and academic talks with specification of the 3 most important publications as well as information about the Google Scholar citation index.
- List of current and previous research projects including information about the financial support received
- Brief description (1-2 pages) of the future focus areas in research and teaching

Further information on the appointment procedure can be found in the Code for Practice for professorial appointments, available under

<http://www.zuv.uni-freiburg.de/formulare/berufungsleitfaden-en.pdf>.

The contract is a fixed-term contract for 4 years. The salary will be determined in accordance with W1.

Please send in a complete and convincing application together with the above-mentioned supporting documents, including a printout of the application form [[open here](#)] and the reference number 10655, by 10.01.2018 at the latest. Please send your application to the following address in written or electronic form:
